

# Biomolecules in Action II

YTF APPLICATION DEADLINE

March 14, 2019

ABSTRACT & APPLICATION DEADLINE

March 30, 2019

## SPEAKERS

**Guoqing Chang**  
Chinese Academy of Sciences

**Henry Chapman**  
Hamburg University

**Petra Fromme**  
Arizona State University

**Frank Gabel**  
Grenoble Alpes University

**Jose A. Gavira**  
Granada University

**Taisia Gorkhover**  
Stanford University

**Filipe Maia**  
Uppsala University

**Irene Margiolaki**  
Patras University

**Alke Meents**  
DESY Photon Science

**Emil Pai**  
Toronto University

**Arwen Pearson**  
Hamburg University

**Thomas Peters**  
Lübeck University

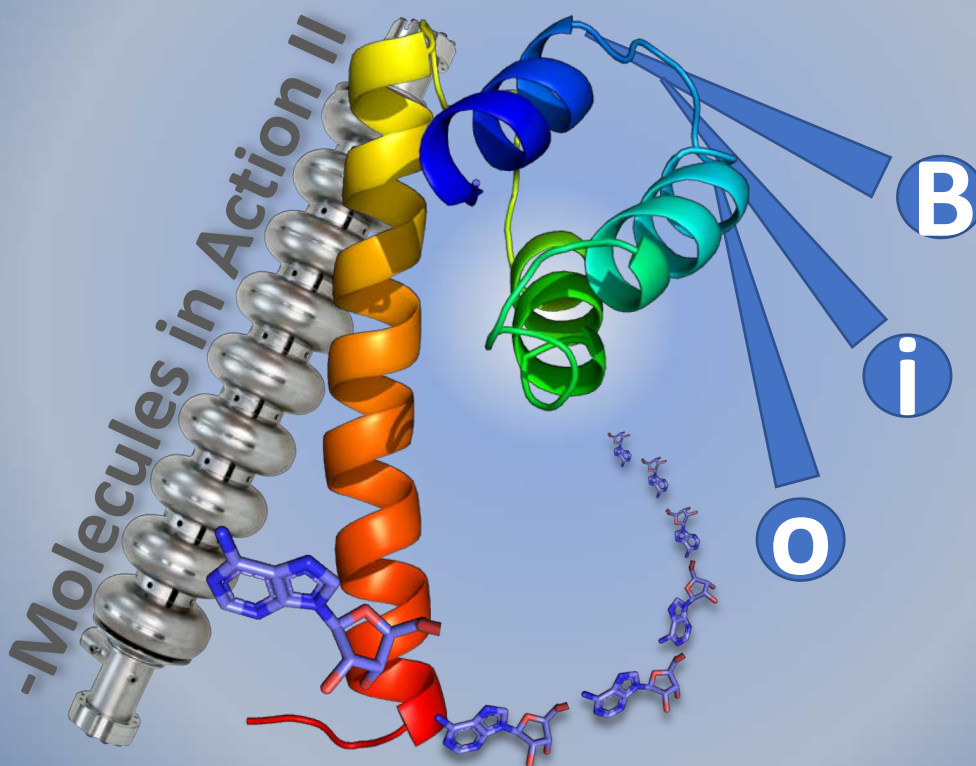

**Lars Redecke**  
Lübeck University

**Michael Rübhausen**  
Hamburg University

**Tim Salditt**  
Göttingen University

**Claude Sauter**  
Strasbourg University

The course objective is to introduce young bio-science researchers to contemporary bioanalytical techniques and methods with focus on preparation and scoring of samples for synchrotron and FEL radiation-based structure analysis. A well characterized sample of the biomolecule of interest is the key to obtain high quality and trustworthy data.

**Hartmut Schlüter**  
UKE Hamburg

**Thomas Schneider**  
EMBL Hamburg

**Tobias Schrader**  
Jülich Research Centre

**Eike Schulz**  
Max Planck Hamburg

**Dmitri Svergun**  
EMBL Hamburg

**Martin Trebbin**  
Buffalo University

**Charlotte Uetrecht**  
HPI Hamburg

**Edgar Weckert**  
DESY Photon Science

## COURSE ORGANIZERS

**Christian Betzel**  
Hamburg University

**Jeroen Mesters**  
Lübeck University

**Ekaterina Round**  
EMBL Hamburg

**Robin Schubert**  
EuXFEL Hamburg

**Ivana Kuta Smatanova**  
South Bohemian University

**Inari Kursula**  
Bergen University

**Janos Hajdu**  
Uppsala University

## TUTORS

**Maria Garcia Alai**

**Hévila Brognaro**

**Sven Falke**

**Kristina Lorenzen**

**Jeroen Mesters**

**James Moore**

**Dominik Oberthür**

**Ekaterina Round**

**Robin Schubert**
